

Keynote panel 16 October 2019

*Knowledge-based Disaster Risk Management: Broadening the scope by "Smart Territories"
for Sustainable and Resilient Cities and Organizations*

Andrew BOWER

Programme Officer

United Nations Office for Disaster Risk Reduction, Brussels Office,
UNDRR (BRUSSELS)

Andrew holds a Master degree in middle eastern studies from King's College London, where he has also been affiliated as a Visiting Research Fellow, and graduated with Bachelor degree in Political Sciences from the University of Birmingham. Andrew has worked for over ten years in the area of European political affairs, with a focus on EU external relations, disaster risk management, civil protection and humanitarian aid. Prior to joining UNDRR, Andrew was a Policy Officer at the European Commission's Directorate General for European Civil Protection and Humanitarian Aid Operations (DG ECHO), in charge of DRR and urban resilience. Before then, he was teaching and carrying out in the EU International Relations and Diplomacy Department of the College of Europe in Bruges. He started his career working in a non-profit structure in Brussels, dedicated to Euro-Arab and Euro-Mediterranean cooperation. Andrew has published work around EU external relations and disaster risk management in peer reviewed academic journals and EU publications. He is guest lecturer in risk management in the multilateral system for the EU International Relations and Diplomacy Department of the College of Europe in Bruges.
